Product Description

ACTIVE INGREDIENTS: MARSH CINQUEFOIL EXTRACT, HIGH-MOUNTAIN MUMIE, GLUCOSAMINE, CHONDROITIN, CAMPHOR, CINNAMON AND GINGER ESSENTIAL OIL

The cream-balm is a highly active local massage product aimed at restoring the proper functioning of the musculoskeletal system. The stimulating action of the product effectively helps to deal with muscle and joint problems caused by age-related changes, sports and physical overloads, as well as in the rehabilitation period after fractures.

The product actively stimulates local blood circulation, nourishes and regenerates muscles and ligaments, making it recommended for bruises and strains.

Instructions

The product should be applied directly from the tube to clean and dry skin of the problem area. The product is rubbed in with massaging movements until completely absorbed. Dosage and frequency of use are determined individually.
